How was God going to destroy everything on the earth?

God had to punish the world because people had turned away from Him and were doing evil. *Noah was saved because he trusted God.* Noah had never seen floods, or even rain, and he was hundreds of miles from the sea. Yet here he was, building a huge boat in the middle of dry land, because God had told him to do so.

It is because God is holy and just that He destroyed everything. He is also love. That's why He told Noah to build the ark so that he and his family could be saved. He trusted and believed God. That is faith. We all deserve to be punished for our sin but God is ready to save us, when we trust in the Lord Jesus.
