There are some words which are repeated over and over again in Genesis 1. This shows that they must be important.

Read the chapter carefully and write two of the phrases or statements which are repeated constantly.

4

This first chapter in the Bible is very important because:

1. God only had to speak and at His command, the world and all life came into being. This is because **God is all-powerful.**
2. Everything He made was perfect and God saw that it was good.
3. God took only six days to create everything.
4. All life forms can only reproduce their own kind. The words of Genesis 1 oppose many theories and ideas that have been thought up to explain where the world and life came from. Each form of life was created individually by God.

CROSSWORD

Clues Down

1. And God said, "Let the land produce trees which produce" (v. 11)
2. "God them." (v. 28)
3. Something which God created. (v. 3)

Clues Across

3. This was in every creature that God made. (v. 30)
4. "the of God moved or hovered over the waters." (v. 2)
5. And God said, "Let the birds (fowl) fly above the" (v. 20)

The climax of creation came when God created man.

Many people think that the first few chapters in Genesis are the only place in the Bible where we can read about the creation of the world. This is not true. There are many other passages, both in the Old Testament and the New Testament which explain creation. (Look at 'Suggested Further Reading'.)

Have a look at our Key Verses.

In the second verse, God claims that He is the one and only God.

Write down the words that He uses in making this claim.
