How the Lord Jesus loves us!*

When you have measles or chicken pox you cannot go to school, otherwise somebody might catch it. In the days of the Lord Jesus there was a terrible skin disease, called leprosy, which quickly spread from person to person.

People who had leprosy had to live away from their homes and families. They had to stay away from everyone!

One day, a man with leprosy met the Lord Jesus. He pleaded with Him to make him better. Jesus looked at the man and wanted to help him. He had a great love for all who needed Him.

He did something wonderful. He actually touched the man! Jesus didn't get leprosy but the man was immediately better! How pleased the man was! Jesus had changed his life. He was well again.
